MEMORANDUM FOR: Deputy Director for Intelligence

SUBJECT : Review of DD/S&T  Study on
Mu Gia Pass

25X1

1. I recommend that if this memorandum is to be forwarded to the Secretary of Defense the first sections be revised and the conclusions re-presented as follows:

25X1

a. We have examined the available ordnance which might be used at Mu Gia 

c. While complete area denial may not be imposed even if re-strikes are made at very frequent intervals, the carrying out of this program would present the North Vietnamese with a series of new logistic supply problems and would require the diversion of additional manpower and equipment if the passes are to be used for continued logistic support on a reduced basis.

2. The referenced study has misinterpreted the logistic requirements. The correct information is contained in the attached memorandum to me from 

25X1

25X1

4. This study, in my view, could be greatly improved from a presentation and usefulness standpoint if we were given a few days to work with the DD/S&T people. The reactions contained in this memorandum and in  memorandum are the result of of only a very quick look.
