REMARKS

Bolshoy Dzhezkazgan (47-47N 67-42E), a major copper-ore-processing center, is 285 miles southwest of Karaganda, on the single-track railroad (Route 491)* from Zharyk (48-55N 73-00E) to Baykonur (47-50N 66-05E). As shown on the accompanying line drawing, the relatively minor rail facilities include the following: two rail yards, each about 2,500 feet long and six tracks wide; a locomotive repair shop, 130 by 80 feet, containing three stalls; two repair shops, 135 by 65 feet and 65 by 55 feet; a turning wye, effective length 400 feet; two 40-foot-diameter POL tanks; and a passenger station, 75 by 40 feet.

*Route number is taken from the document listed above.
