ENCLOSURES: None

ORR REQUIREMENT NO. RR/HTA/E/R82/56: Report physical changes in the Leningrad Chemical Combine, "Nevskiy" since 1944.

REMARKS:

This installation, located along the Neva River in the SE outskirts of Leningrad, has undergone little overall change since World War II.

The only noticeable changes are as follows:

1. The addition of a large stack immediately north of the sulfuric acid production building.
2. The addition of one sulfuric acid tank adjacent to the three previously existing sulfuric acid storage tanks.
3. The removal of two vertical tanks and two small horizontal tanks formerly located near the sulfuric acid production building.
4. A new large waste or slag pile is located to the east of the plant.
