REMARKS:

The Moscow Chemical and Dye Plant "Dorogomilovskaya", reportedly a major producer of dyes and dye products, is located 2½ miles SW of the Kremlin.

There has been little change in the external appearance of this large plant since 1944.

One probable storage building, 270'x 75', has been added, adjacent to and north of the reported machine shop near the center of the plant area.

Two storage buildings, 270'x 75', have been removed from the north central part of the plant.
