ENCLOSURES: None

ORR REQUIREMENT NO. RR/HTA/E/R101/56: Confirm or deny the reported existence of a small petroleum refinery near Stryy, USSR.

REMARKS:

During World War II a small refinery was reported to have been operating in the vicinity of Stryy, which is located 50 miles E of the junction of the Poland/Czechoslovakia/USSR borders.

Recent photography of the area within a radius of 5 miles of Stryy was searched in a vain attempt to locate this reported petroleum refinery.

The small scale and relatively poor quality of this photography precludes a positive denial of the existence of this refinery. If it does exist in this area it would be a very small installation.
