ENCLOSURES: None

ORR REQUIREMENT NO. RR/HTA/E/R-26/56: Determine the number of open hearth shops and stacks and the number and size of rolling mill buildings.

REMARKS:

Although no building can definitely be identified on the photography as an open hearth building, one building has repeatedly been reported in collateral material as containing open hearth furnaces. Two large stacks adjacent to this building tend to substantiate these reports. The building covers an area of approximately [REDACTED] square feet and externally appears to have undergone no change since [REDACTED]

25X1D
25X1D

There appear to be three rolling mill buildings with a total area of [REDACTED]. One of these buildings has undergone an increase in area of 89,600 square feet since [REDACTED]. The other two appear unchanged.

25X1D
25X1D

There is also a reported pipe mill that covers an area of approximately 143,500 square feet. This appears the same as on [REDACTED]

25X1D

Linear dimensions are available but are not indicated because buildings are geometrically irregular in shape. No further reports will be published on this installation unless additional requirements are levied.
