REQUIREMENT: RR/HTA/G/R8/56 requesting preparation of a mosaic of available aerial photo coverage of Moscow.

A mosaic of available vertical photography of Moscow has been prepared at a scale of approximately 1:25,000. Coverage is primarily limited to the southwestern sector, since the remainder of the city was obscured by clouds. No mosaic of the adjacent obliques was prepared because of the inherent nature of such photographs. However, prints of these obliques may be obtained at a scale approximating that of the mosaic. The mosaic consists of five sheets, each 20 by 24 inches in size, and is available on request.
