REQUIREMENT RR/HTA/E/R22/58: Locate and describe fluorspar mining and concentration operations at the Aurakhmat Fluorspar Combine, near Brich-Mulla, Kazakh SSR.

### REMARKS:

The Aurakhmat Fluorspar Combine reportedly is located 90 kilometers northeast of Tashkent and three kilometers south of the village of Brich-Mulla, on the right bank of the Chatkal River. There is some photographic evidence of mining and milling operations at this location. However, this area falls at the extreme edge of oblique  photography and the resulting small scale precludes detailed photo analysis.
