HTAUTOMAT REQUIREMENT			
REQUESTOR		25X1A	REQUIREMENT NO.
Division Industrial	Electrical Equipment	[REDACTED]	RR/ETA/E/RL18/56 Date 12 Oct. 56
TARGET INFORMATION → Molotov "MINSK"			
Target by name or central reference point. Minsk Radio Plant in Minsk Mosaic 0168-9997-25 RA - Target Ref No. 18 (Possibly)			
Country USSR	Wac No. 168	B. E. No.	Coordinates 53 55 N - 27 35 E
PHOTOGRAPHIC INFORMATION			
[REDACTED]			
SPECIFIC PHOTO INTELLIGENCE REQUESTED:			
<p>It is reported that one of the largest electronics plants in the USSR is located in Minsk, with a production program including military electronics and radar. Other evidence suggests that there may be two electronics plants in Minsk.</p> <p>One of these is certainly Minsk Radio Plant "Molotov", believed to be located in the NE section, 1/8 NM from the Minsk Technical College, just off the main road, Minsk to Moscow, location of the second plant (which may be the "large radar plant") is not confirmed. It may be near "Molotov"; low-level reports have suggested a location south of the city, on a Moskovskaya Ulitsa.</p> <p>The following PI is requested:</p> <ol style="list-style-type: none"> (1) Confirm location, size of "Molotov" plant. Describe briefly. (2) If possible, indicate probable location and size of the second electronics plant. (3) Examine "Molotov" plant and other unidentified end-equipment type plants in Minsk for evidence of radar-type antennas - as test units on roof or as inventory in compound. If possible, sketch antennas in rough. (4) Report new plant construction which may be associated with either of these two facilities.
