**MISSION COVERAGE SUMMARY**

Date of Photography 19 June 1957 Report No. MCS 17-57  
Date of Report 24 June 1957 Mission No. C 6005

This mission covers the Kamchatka river valley from 56°32'N, 160°53'W to 55°47'N, 159°39'W in a generally north-south direction and from 56°25'N, 159°43'W to 56°17'N, 162°00'W, in a generally west-east direction. This includes the towns of Klyuchi, Kresty, Ushki, Kozyrovsk, Kravchinskaya, and Kemaki. Photography was generally good along the river valley, while the highlands on the high obliques were mostly obscured by heavy clouds. Owing to camera malfunction on the large-scale photography, every third frame was blank and a complete malfunction extended from Kozyrovsk to Ushki.

While this mission has been dated 19 June, actual photographing of the Kamchatha area took place on 20 June, owing to crossing of the International Date Line.

The area was generally forest country, with snow in the highlands. Extensive logging operations were visible throughout the area. A probable communication or power line roughly paralleled the navigable Kamchatka river from south of Kozyrovsk to Klyuchi. River traffic, consisting of barges and small craft, was active. Agriculture was limited to small areas in the vicinity of towns or settlements.
