MUNITIONS STORAGE SITE NEAR HUANG-PEI, CHINA

X1

A previously identified munitions storage site with   is located at 30-48N 114-19E, 5 nautical miles (nm) SW of Huang-pei and 15 nm north of Wu-han (Hankow), China (Figure 1). The site is road served; rail service is available at a siding 1 nm to the west.

25X1

Storage Buildings

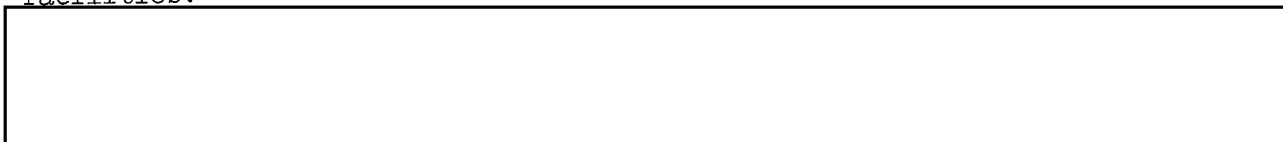

Storage facilities at the site include 13 warehouses and 3 small storage/service buildings (Buildings 2, 4 and 7, Figure 3). Three of the warehouses (Buildings 11, 12 and 14, Figure 3) are of particular interest. These buildings are divided into 2 unequal sections by a fire or blast wall. Ventilators are visible on the roofs, and separate access to each section is provided by entryways at both ends of the buildings.

Small piles of white material, suggestive of a decontaminant, can be seen near Buildings 10 and 15.

Security

Security is provided by a wall which surrounds the entire site. A small guardhouse is located at the road entrance to the site. The administration and barracks area is not separately secured from the storage facilities.

25X1

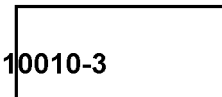

The lookout point mentioned in an earlier report 1/ is no longer visible on the most recent  photography.

X1

Administration and Barracks Area

The administration and barracks area, consisting of 2 barracks, 1 administration building and 5 associated support buildings, is located in the NW corner of the site near the road entrance.
