KEY TO ANNOTATIONS

1. Three, possibly four, unidentified vessels on building ways (LOA of each approx. 170').  
Superstructure on each of these craft appears to be placed well forward of amidships. See annotation 1,
2. Unidentified vessel in launching basin (could not be measured).
3. Possible vessel moored outside launching basin (could not be measured).  
The presence of a vessel located in this position is evidenced by a shadow cast upon the snow and ice.
4. Three unidentified vessels moored alongside quay (could not be measured).  
The small scale of the imagery and the shadows cast by quayside equipment preclude detailed analysis. These vessels do not appear to be as long or of the same class as the vessel indicated by annotation 5 below.
5. Unidentified vessel moored alongside quay (LOA approx. 250').

25X

NOTE: All measurements have been made by the CIA/IAD project analyst, with the exception of annotation 5, which was provided by the NPIC Technical Intelligence Division and is considered accurate within ± 10 feet.
