PREFACE

This report is one of a series of reports designed to provide continuous detailed information on selected ground force installations in the Soviet Union and China by the utilization of [redacted] photography.* The installations are selected from the various military districts and regions in the Soviet Union and China and include Category I, II, and III Combat Units, Combat Support Units, Training Areas, Depots and Storage Areas, Test Facilities, and Production Facilities. Installation names are derived from the DIA Bombing Encyclopedia (May 1966).

25X1

Each installation is examined for physical changes to the facilities, changes in the level of activity, and the identification of vehicles and equipment.

All changes in facilities and vehicle/equipment type and/or count are referenced to the most recent detailed report on the installation. In cases where reports do not exist, the changes are referenced to the most recent complete mission readout.

The sequence of installation listing within this report is by country, type of target, military district or region, and alphabetically by installation name. A report of this type will follow each [redacted] Mission.

25X1

NOTE:

* These reports will include all targets covered on [redacted] photography and those training areas covered on [redacted] photography. All analysis performed on other than the [redacted] mission referenced on the cover will carry a mission reference within the individual installation analysis.

CHANGES IN FACILITIES/ACTIVITY:

Troop training and support area construction continues on the buildings reported in CIA/PIR-67289. The SCUD units occupying the training area on the mission are not in the same areas as those reported on previous missions. There is a notable absence of troop tents in the area indicating the troops are probably utilizing the billeting facilities of the troop training and support area. SCUD activity observed consisted primarily of transloading exercises although one SCUD TEL was observed with the missile erected for a simulated or actual firing exercise.

VEHICLES/PIECES OF EQUIPMENT OBSERVED (By Area):

Troop training and support area motor pool: one SCUD TEL, 1 probable SCUD TEL, 3 probable SCUD resupply trailers with prime movers, 1 probable "A Frame" crane with prime mover, 6 lowbed trailers, 1 probable truck tractor, 25 cargo trucks, 1 UAZ-69 utility truck, 8 unidentified vehicles, 5 unidentified pieces of equipment.

SCUD Training Activity immediately north of the Troop Training and Support Area Motor Pool:

One SCUD TEL with missile, 1 SCUD TEL, 4 SCUD resupply trailers with prime movers, 3 "A Frame" cranes with prime movers, 1 possible END TRAY radar, 33 cargo trucks, 8 probable van trucks, 3 UAZ-69 utility trucks, 4 U/I vehicles, 5 U/I pieces of equipment. Also observed in the area is a large probable canvas shelter.

SCUD Training Activity approximately 1 nm NW of the Troop Training and Support Area Motor Pool:

One SCUD TEL with missile erected, 6 SCUD TEL's, 5 SCUD resupply trailers with prime movers, 1 probable SCUD resupply trailer with prime mover, 2 "A Frame" cranes with prime movers, 7 lowbed trailers, 3 probable END TRAY radars, 88 cargo trucks, 21 probable van trucks, 34 UAZ-69 utility trucks, 17 U/I vehicles, 10 U/I trailers, 10 U/I pieces of equipment, 3 general purpose tents, 5 pyramidal tents.
