| SHIPYARD: AMUR SHIPYARD 199 LOCATION: KOMSOMOLSK, USSR GEO COORDS: 50-33N 137-02E | 25X1 |
| KEY TO NUMBERED ANNOTATIONS | |
| 1. Eight, possibly nine, probable submarine hull sections resting on their transverse axes in a line paralleling and adjacent to a railroad track. These sections range in approximate diameter | 25X1 |
| 2. "PM-124" Class YRSN (LOA approx 310') at fitting-out quay. The distinctive "A" frame shadow, two hatches forward, superstructure placement and lifeboat arrangement identify this as a "PM-124". See annotation 3, | 25X1 |
| 3. Large floating crane at fitting-out quay. See annotation 4 | 25X1 |
| 4. Probable KRUPNYY Class DMS hull (LOA approx 450'). See annotation 5, | 25X1 |
| 5. Upright floating security screen. this screen was positioned diagonally between the box of the KRUPNYY and the side of the mole. The screen is now in a positic parallel to the mole which suggests the submarine may be about to enter the transporter dock. At this time the dock is still unflooded. See annotation 6 | |
| 6. Unoccupied transporter dock (LOA approx 465'). See annotation 7, | 25X1 |
| 7. AMGEUMA Class Cargo Icebreaker (LOA approx 440'). The masts on this ship have been erected. See annotation 9, | 25X1 |
| 8. Small barge containing two vertical screens. | ı |

| TOP SECRET | 2 | | | | | | |
| CIA/PIR-77068 | | | | | | | |
| "E-II" Class SSGN (visible waterline length approx 380') berthed between the fitting-out mole and the probable KRUPNYY hull. The three sets of blast deflectors aft of the sail, the small sail, and the visible length confirm this to be an "E-II" Class SSGN. See annotation 8, | 2 | | | | | | |
| KEY TO FACILITY ANNOTATIONS | | | | | | | |
| The two new probable fabrication buildings appear to be nearly complete. See annotation A, | 2 | | | | | | |
| Construction is continuing at the western extremity of the transverser system. | 2 | | | | | | |
| Construction on the new building is continuing with one bay roofed over and another in the erection phase. The function of this building cannot yet be determined. See annotation C, | | | | | | | |
