KEY TO NUMBERED ANNOTATIONS

1. Apparently unoccupied building way previously occupied by a transporter dock and a possible YR/APL.  
A fence line is still visible on either side of the building way.
2. Unoccupied transporter dock (LOA approx 440'; inside length approx 380').
3. Unoccupied transporter dock (LOA approx 440'; inside length approx 380').
4. Poor image definition precludes identification of individual vessels in this area.
5. ZEYA Class YRSN (LOA approx 235').  
Identification is based on imagery equating to the unique small superstructure forward, a long depressed area amidships, a raised area aft, approximate length, and hull outline.
6. Unidentified vessel (LOA approx 310').  
This vessel appears to have two levels of superstructure above the main deck.
7. Unidentified vessel (LOA approx 310').
8. Two unoccupied transporter docks (LOA of each approx 430'; inside length of each approx 375').
9. Possible POLNOCNY Class LSM (LOA approx 230').  
Identification is based on the size, position, and appearance of the superstructure (on after two-fifths of ship), approximate length, and hull shape.

KEY TO FACILITY ANNOTATIONS

- A. Construction continues on the new probable construction hall (revised over-all dimensions approx 1240' by 430').
- B. Construction continues on the new possible quay extension.
- C. This new two-bay shop-type building is still lacking a small roof section on the northeast corner of the building.
