MEMORANDUM FOR: Deputy Director for Science and Technology

ATTENTION: [Redacted]

25X1

THROUGH: Chief, Requirements Branch, Reconnaissance Group, CGS

FROM: Chief, CIA/PID (NPIC)

SUBJECT: KH-7 Targeting Program

REFERENCE: (a) Requirement NPIC/2/64
(b) CIA/PID Project C 1189-64

1. This memorandum is in response to the requirement dated 15 July 1964 requesting a determination of ground distance from center of frame to center of target on a number of COMOR targets covered by KEYHOLE Mission 4006.

2. Attached is a tabulation covering sixteen COMOR targets on which measurements were made by TID/NPIC to determine how far and what direction from center of film format that the approximate center of each target was located by ground measurement. Also attached are sketches showing the direction in which the camera was rolled and the angular position of the target.

3. The sketches are not to scale, but the relationship of the target from center of format (directional) is correct. The line of flight is the same on each sketch. The direction arrow labeled "direction of roll" points toward which "wing" is up. The targets are shown in approximate position on film and in correct quadrant of format. All angles computed are ground angles.

25X1

5. This project is considered to be complete.

25X1

Enclosures:

- 1 - One Tabulation of Measurements
- 2 - Sixteen sketches
