MEMORANDUM FOR: Director, National Indications Center

25X1D

ATTENTION: [REDACTED], USN

SUBJECT: USSR Submarine Order of Battle, Derived from Talent-Keyhole Photography, [REDACTED]

REFERENCE: Requirement No. NIC 2-5 of 17 March 1965 (NPIC Project 11223-5) Partial Answer

1. In response to reference requirement, the attached Order-of-Battle Report is forwarded herewith for your information and retention.

2. The Order-of-Battle information, as derived from overhead Talent-Keyhole photography, is presented on three SS Deployment Base/Shipyard data bases and covering the "Pacific Fleet, Northern Fleet, Baltic and Black Sea Fleet" areas. Overlays with associated legends provide the current "SS-OB" as now carried by the NPIC.

3. The attached report represents the first collation of baseline data for utilization by NIC in future indications application. It should be noted that submarine identification and counts as listed show a marked improvement in detail and accuracy based upon continuing improvements in the collection systems.

4. It is anticipated that this or a similar type report will be compiled and disseminated on a semi-annual basis with input cut-off dates of 30 June and 31 December with the 31 December report providing the annual identification/count totals.

5. It is estimated that the 1 January/30 June 1965 report will be disseminated on or about 31 July 1965. 25X1A
