USSR

25X1D

KEYHOLE Mission [REDACTED] provided excellent coverage of the Soviet Atomic Energy complexes at Dodonovo (56-16N 93-28E) and Zaczernyy (56-06N 94-31E). Construction is continuing on Building D and the powerplant at Zaczernyy; however, no major changes can be seen. No significant change can be seen in the reservoir under construction at Dodonovo, but the initial excavation for a possible third reservoir can be seen approximately 800 feet to the east. (TOP SECRET RUFF)

25X1D

Coverage of the Derazhnya MRBM Complex in Mission [REDACTED] revealed that an erector was present on each of the four launch pads at Fixed Field Site No 2. At the two nearby permanent soft launch areas, erectors were still present on the pads at Launch Site No 1 but were absent from the pads at Launch Site No 2, indicating that the unit observed in training at the fixed field site is probably from Launch Site No 2. (TOP SECRET RUFF)

25X1D

Ground scarring is visible on Mission [REDACTED] in the eastern section of the Radar Developmental Area at Kapustin Yar. This scarring consists of two legs in an orthogonal pattern. One leg is oriented east-west and is approximately 1,750 feet long. The second leg, oriented north-south, is approximately 2,000 feet long and extends beyond the northern security fences and firebreak. This scarring is negative topography of [REDACTED] (TOP SECRET RUFF)

CHINA

25X1D

A detailed study of [REDACTED] reveals a second radar with a mattress-type antenna (possible MOON COBE) located at Chi-sha, China (21-34N 108-28E). It is located next to the previously reported SCR-270 Radar. (SECRET/NO FOREIGN DISSEM)

25X1C

25X1D

A detailed study of Mission [REDACTED] reveals the existence of a previously unreported radar site at 22-33N 104-26E in the Ma-Kuan barracks area. The site contains a possible SCR-270-type radar with two support buildings atop a hill 2.8 nautical miles southeast of

Ma-Kuan complex. Poor-quality photography precludes a more detailed interpretation of the site. (SECRET/NO FOREIGN DISSEM)

25X1C

_ 25X1D

A continuing scan of Mission [REDACTED] reveals an unidentified tracking radar located on the south side of Hainan Island approximately 0.5 nautical miles west of Yai-Hsien Airfield at 18-17-32N 109-26-42E. The radar screen was observed rotating. A support building is located immediately east in a clump of small trees.
