MEMORANDUM FOR: Deputy Director for Science and Technology

SUBJECT: Conversion to Career Status -
[REDACTED]

25X1A9a

1. [REDACTED] has now been in the employ of the Agency for the 30-month period, and, therefore, consideration must be given to his conversion to career status.

25X1A9a

25X1A9a

2. [REDACTED] is currently assigned to the Target Access Division under the direction of [REDACTED]

25X1A9a

[REDACTED] has informed me that he feels that the determination of the conversion of [REDACTED] to career status should be postponed until approximately 1 December 1973. His feeling is based on the fact that a) [REDACTED] has been reporting to him for only a short period of time, and b) [REDACTED] has indicated some concern about [REDACTED] maturity of judgment in carrying out his duties as a project officer.

3. It is felt that some of this problem area may be due to the transitional change and recent reassignment of personnel in ORD. [REDACTED] feels that by carefully monitoring [REDACTED] performance during the intervening time period, he will be able to make a firm judgment as to the advisability of recommending career status.

Sayre Stevens

Director of Research and Development
