MEMORANDUM FOR: Director of Training  
FROM : John N. McMahon  
Acting Deputy Director for Administration  
SUBJECT : Weapons Accountability

Rod:

STATINTL

I realize that you haven't had the opportunity to sort out what happened regarding the missing 9mm weapon [REDACTED] however, the incident does point out an obvious failure in our accountability procedures. I urge that you assign someone to look into how weapons are handled and accounted for and to devise a system which will protect against a possible reoccurrence.
