9 JAN 1962

MEMORANDUM FOR: Deputy Director (Support)

ATTENTION : Regulations Control Staff

SUBJECT : Book Dispatches

REFERENCE : Memo dtd 9 Nov 61 for DD/S fr Acting SSA-DD/S,
same subject

1. In reference memorandum we advised you of a program undertaken to review Book Dispatches on support subjects with a view to the destruction of those no longer in force and to make appropriate arrangements to preserve the contents of those still current. As of that date, 9 November 1961, we advised that we had requested that 102 Book Dispatches be destroyed, that 18 Book Dispatches be incorporated into Agency Regulatory Issuances and that 7 Dispatches remain in effect in their present form.

2. This is to advise that we have reviewed an additional 98 Book Dispatches and after checking with the initiating offices have requested that 97 of these Dispatches be destroyed. One of the Book Dispatches reviewed contains instructions which are still applicable, but which we believe should be incorporated by the Office of Security into a current Regulatory Issuance. The description of that Book Dispatch follows:

No. 144, dated 25 February 1957, initiated by Office of Security, subj: Counter Audio Surveillance.

3. Will you please advise us when the subject matter of the above described Book Dispatch has been incorporated into a Regulatory Issuance, so that we may arrange at that time for the cancellation and destruction of the Dispatch.
