

3 January 1955

MEMORANDUM FOR: Chief, RQM/RC  
FROM : Chief, Projects Control Staff, ORR  
SUBJECT : Possible Compromise of Classified Document

1. We have been advised by the Inspection Staff of the Security Office that a memorandum from G-2 dated 8 December 1954 reported that a copy of CIA/RR ER-5, Soviet Geodetic and Photogrammetric Instrumentation was thrown into the Atlantic Ocean from a MATS plane on 28 October 1954 in order to lighten the load when the plane developed engine trouble. G-2 therefore presumes the publication to have been compromised.

2. Sources 21, 22, and 23 on page 31 of this report indicate the use of CS-G information reports. We are advising you of these facts for your consideration of any action you may desire to take.
