2. Meeting 22 November 1966

Research and development priorities within OBI were discussed with the Deputy Director. Each project was evaluated and ranked. The final report will be forwarded to [REDACTED] for consolidation in a DDI report. The subject of punchcard project priorities was also raised. With the Machine Division switching to computer processing, it seems inconsistent to limit priorities to computer applications handled by OCS. It was agreed that this topic should be aired at the next Information Processing Committee Meeting. Before closing [REDACTED] from ORD/Analysis spoke on a proposed hand-held scanner for abstracting documents.
