MEMORANDUM FOR: Director of Research and Development

SUBJECT : Exchange of Briefings with the DD/I

25X1

1. I called Mr. Proctor with reference to the attached memorandum [redacted] requesting that ORD brief the information coordinators in DD/I. I told Mr. Proctor of our alternative suggestion that we brief each of the offices of the DD/I and receive reciprocal briefings. Mr. Proctor asked if we would mind doing both as they have a critical ADP problem at the moment and he would like to have the coordinators briefed. He said, however, that he would inform the office chiefs in DD/I at the staff meeting today that ORD will be in touch with them to establish a series of reciprocal briefings (that is, ORD will brief perhaps six to ten of the key individuals in each of the offices and in turn will receive a briefing from these offices). The ORD briefing will encompass all of ORD's activities of significance to DD/I rather than be restricted to the IPRD and analysis area.

25X1

2. I told Mr. Proctor I got the impression from [redacted] that he was establishing himself as the focal point for coordination of activities of ORD with the DD/I and I wanted to be sure that this was his (Proctor's) intention. Mr. Proctor's response was that this was not the case and that [redacted] is only coordinating activities with respect to ADP. He further stated he would make this point clear to [redacted] when he returns from a five-week absence.
