

BEHAVIORAL ACTIVITIES

Human Factors ^{action} (Man-machine interface; performance enhancement; training improvement; audio-visual systems analysis; ^{improvement} ~~advanced~~ biochemical ~~and higher process~~ mechanisms; ESP; operational health hazards)

Stress Measurement and Interpretation

(Polygraph; remote ~~physiological~~ monitoring; environmental ~~hazards~~; ^{fact} performance prediction; advanced bio-physical measurement ~~techniques~~)

Behavior

(Assessment; decision process analysis; motivation determinants; manipulation and control; ethocultural influence ~~studies~~; psychopharmacological influence ~~studies~~)
