26 August 1966

MEMORANDUM FOR THE RECORD

SUBJECT: Dr. Donald MacArthur

1. Dr. MacArthur, formerly of Melpar but now the Deputy Director for Research and Technology in DD/R&E, called me this morning and asked if we could set up a small, informal discussion relative to subjects such as biology, chemistry, [redacted] etc. I had been previously alerted by Paul Tamarkin that Dr. MacArthur would call.

25X1

2. I suggested that such a meeting might be mutually beneficial but that it should take place after Labor Day when [redacted] my Deputy, would be back in town, since some of the topics were of vital interest to him.

25X1

3. The way it was left with MacArthur was that I will call after Labor Day and arrange a date for such a get-together.

ROBERT M. CHAPMAN  
Director of Research & Development
