MEMORANDUM FOR: Chief, West Coast Procurement Office/OL
THROUGH : Chief, Research & Engineering Division
SUBJECT : [redacted] 25X1

1. This memorandum reports the results of the NPIC evaluation of [redacted] technical and managerial performance on Contract [redacted] the FY-70 Ground Order of Battle Resolution Study. This 6-month CPAF contract expired in December 1970 after expending approximately [redacted] including a target fee. The actual fee will be awarded directly as a function of contractor performance, 80% of the fee determination to be based upon technical performance and 20% upon managerial and cost performance. The final performance evaluation is contained in Paragraph 4. 25X1

2. The following performance/fee schedule governs the contract's award fee:

Outstanding	14%
Excellent	12%
Good	10%
Average	8% (Target Fee)
Below Average	6%
Marginal	4%
Minimum	3%

3. [redacted] performance on this contract was evaluated primarily by the COTR. Additional input from other NPIC technical officers as well as operational personnel familiar with the project also contributed to the final appraisal. The contractor's technical performance consisted of three major components, data collection, data analysis, and reports/briefings preparation; each component was given approximately equal weight during the assessment procedure. In addition, ratings were made of general contractor performance, including his manner of working while at the Center, his understanding of the detailed operations of the Center, his overall commitment to achieving solid, useful results, and his cooperation with associate contractor personnel. 25X1

SUBJECT: Recommendation for [redacted]

25X1
25X1

4. As a result of the above evaluation procedure, [redacted] overall performance on Contract [redacted] is hereby certified as GOOD/EXCELLENT (11% fee recommended).
