Attention:

Subject : RFP No. PIC-03-71 (50064)

Gentlemen:

The Government wishes to express its appreciation for the interest displayed and the efforts expended by your company in response to subject Request for Proposals.

It has been decided not to fund this program this fiscal year. Accordingly, there are no plans to issue a contract based on any of the proposals received in response to subject request for proposals.

The reason for this decision is that it is the consensus of the several evaluators of the proposals that none of the proposals outlined a program which appeared to satisfactorily overcome the limitations imposed by the paucity of operational imagery.

Please be assured that your company's name will be retained on our bidders list for this type of work.
