Dear Ed:

You know of my concern regarding reaching a decision on how screen materials should be characterized before we get too deeply into the evaluation program. [Redacted] have been working on this and we are planning on meeting internally the afternoon of May 25th to decide on our recommendations.

STAT

In view of your departure for a month's period beginning June 9th, we feel there is some urgency about reaching a conclusion on how the data should be presented. I assume that you and [Redacted] have also been giving some thought to this problem. Will you please let us have your thoughts on how you feel we should arrange to get together on this matter before you leave for your trip.
