

25 September 1969

NSA Declassification/Release Instructions on  
File.

MEMORANDUM FOR: 

AD/DCI/NIPE

SUBJECT : Intelligence Documents Requested by  
Adm. George Anderson, PFIAB

25X1

1. Attached are a selection of intelligence reports and charts which were among those used in briefing Adm. George Anderson at NPIC on 23 September 1969 on the subject of analysing and reporting on Soviet ICBM deployment.

2. Adm. Anderson requested that copies of these particular reports and charts be provided to him for use in demonstrating to PFIAB the care and precision with which analysis, reporting and collection guidance are performed concerning Soviet ICBM deployment. All of these reports and charts have been published and disseminated--at least within the intelligence community.

3. This batch of sample reports does not include any on Soviet command and control. We shall await a written request before responding to that requirement.
