MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

SUBJECT: National Intelligence Survey (NIS)
Production Forecast for Fiscal Years 1967, 1968

REFERENCE: USIB-M-369, 4 February 1965, item 7. c.

1. In accordance with reference the NIS Committee forwards to USIB the attached NIS Production Forecast which the Committee has developed for fiscal years 1967 and 1968.

2. The Forecast extends for the two fiscal years the pattern of production priorities by topics and foreign areas which USIB approved last year.

3. The attachment groups by major world regions the countries on which NIS production is forecast. Africa and Latin America continue to receive the largest production emphasis accounting for some 23% and 22% respectively of total NIS coverage for the period.

4. The General Survey again provides nearly 60% of the total coverage forecast for the two years, reflecting the emphasis on this volume as the primary unit of NIS coverage.
