To the director of the CIA-organization,
WASHINGTON
USA

Dear director of CIA !

We herewith have the pleasure to hand you a copy of our to-days letter to President Ford and beg you kindly to very carefully take note of the contents.

We presume that the Authorities of Health of Pensylvania are not in possession of that great material of evidence as to one of the greatest murders of justice, that took place in 1950 in the Orphans Court of Philadelphia. Since that time the cadaver of that murder has had a splendid opportunity to on the running line spread out the microbes of its rottenness into the religious very sensible air of the people living in Philadelphia without there could be found one only person or authority, that took care of the cadaver in spite of a great lot of eyeopeners, which we furnished the whole senate of USA with as to the great murder of justice in the Garrett-lawsuit, where 30 Million of dollars with a forgery á la Hitler ware dirigated into the money-bag of the United States.-

Xt

It is no wonder, that after this huge negligence and inaccuracy of the culture of health, the piggishness of Hitler-Germany now after 25 years resulted in an epedemi in Philadelphia.-

We think this information can serve as a reply to all the people of USA, who are at a loss to understand, why it was just Philadelphia where the epedemi started. It was just the city Philadelphia, were the great American idealist Walther Garrett and his wife Henriette was living, who donated whole his fortune of 30 millions of dollars to the poorest people who to-day are dying of hunger.-

Henriette Garrett deceased in 1930 and now 1976, when the epedemi brokeed out there have passed 46 years, indeed a long time during which the cadaver had the opportunity to produce the microbes of its own rottenness.-

We are sending you this letter, as we are of the opinion, that this has something to do with the own security within your own country and the bad moral of right.-

With best regards

Sincerely yours

Anna Marie Sonnhall

Johanneshov August 9th 1976

To the Honorable President of UNITED STATES,
Gerhald F o r d,
White House,
WASHINGTON
USA.

Dear President Ford !

Referring to my last letter with regard to the epedemi at Philadelphia we see that the Authorities of Health are unable to find what kind of virus it is, which has caused the epedemi.- The only result, which their investigations have reached at is, that they are concentrating the matter to the congress of war-veterans, which some time ago took place at Philadelphia.-

Even as per our opinion, the slow insidious poison has been transplanted by the soldiers from the war with Germany. At that time, when the small Hitlers governed Germany they produced a great lot of poison by the many forgeries, with which they intended to occupy more important inheritances coming from USA and other foreign countries. One of these legacies was the fortune of Walther Garrett, the great American idealist, who donated whole his fortune of 30 millions sweet dollars to our humanitarian activity by transplantation of one of Henriette Garretts blodrelations of Hamburg in order to save the millions from Adolf Hitlers attachment.-

This poison was transferred already in 1942 to USA when the military powers of USA took care of Walther Garretts humanitarian donation for the poorest of the poor people in the world. In 1950 the Orphans Court of Philadelphia took care of this forgery-poison and constructed one of the greatest murders of justice of the world of it. Later on even the Supreme Court of Philadelphia confirmed that murder of justice.-

Now this dead body of the murdered justice, this carcass during 25 years since the murder took place has produced a great lot of rotteness that all the time was spreading its microbes into the mentally, , spiritual air of Philadelphia, which on account of its religious character is very sensitive and susceptible for such poison from foreign countries.-

Sorry to say, there never has been one only human being in USA, who was willing to take care of that rotten carcass in spite of the many eyeopeners, which we have sent to the senators of USA, so that it is your own fault if the cadaverous smell last not least resulted in an epedemi.- Even if the congress is granting president Ford that great amount of dollars in order to vaccinate the whole

American people, it will be necessary to take care of the cadaver and recompensate us for the robbed money for the poor people.-
