

CENTRAL INTELLIGENCE AGENCY
WASHINGTON, D. C. 20505

20 February 1976

Mr. George Jeff
President, Rockwell Space Division
Rockwell International

Dear Mr. Jeff:

I wish to thank you and all of your personnel for the very informative briefing and tour of your facilities and the Space Transportation System which you hosted during our trip to Rockwell last week. I can echo the unanimous opinion of my staff that the Space Shuttle is a most impressive program. It is evident to me that this program is a national asset of the first magnitude. You and your personnel can be justly proud of the central role which you have in its development.

STATINTEL

Very truly yours,

[Redacted signature box]

George Bush

*Thanks for all
your time.*
