11. [redacted] LIAISON Called Jim Fellenbaum, Senate Appropriations Committee staff, in connection with his call yesterday to George Cary on language for incorporation in the Appropriations Act to assure that CIA funds are available for obligation only for one fiscal year. I suggested that he delete all the language after the colon, and substitute language so that the provision would read as follows: "None of the funds appropriated in this Act for programs of the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year; with the withdrawal and restoration of unobligated balances being treated in a manner consistent with applicable statutes, including 31 U.S.C. 701 et seq and 50 U.S.C. 403g." This language was coordinated with Comptroller, Office of Finance, and OGC.

13. [redacted] BRIEFING Mark Moran, staff of Senator Frank Church (D., Idaho), called in response to my earlier suggestion and asked if we could arrange a breakfast session with the DCI and Senator Church for sometime next week as a prelude to the Senator's trip to Cuba.

14. [redacted] LIAISON Dave Newhall, in the office of Senator Richard Schweiker (R., Pa.), called to register a mild complaint that Mary Francis Lowe, the Minority staffer on the Senate Human Resources Subcommittee on Health and Scientific Research, was not permitted to review the MKULTRA material on the basis that she didn't have a clearance. After checking, I called Newhall back explaining that the preliminary arrangements contemplated including a Minority staff member of the Subcommittee, and the individual designated had been Spencer Johnson, Minority Counsel of the Committee, but he had never shown up. I indicated that if Senator Schweiker, as the Ranking Minority Member of the Subcommittee, wanted to have Ms. Lowe involved, we would have no objection, but that it was too late in the day to verify her security clearances with DOD, which apparently holds them. It was agreed that we would check on the clearance status first thing in the morning and Lowe would call tomorrow to verify that everything is in order before visiting the Agency to review the documents.

[redacted] LIAISON Talked with Norvill Jones, Chief of Staff, Senate Foreign Relations Committee; and expressed concern regarding the attendance of various personal staff representatives at this morning's hearing. Jones and I discussed this in some detail and he mentioned that the problem is greater than just S. Res. 60 designees. It also covers other personal representatives which members may have. I told him this was a matter of concern to us, as I was sure it was with the Committee. We agreed to talk with our principals about this problem and suggest that they take the matter up the next time they met on a covert action briefing.

25X1

I also advised Miller that there were several types of documents involved in our recent file discovery and some of them did not pertain to the subject of drug testing; therefore, we would separate those documents which did not pertain to drug testing and make them available to the Senate Select Committee staff separately from those pertaining to drug testing which will probably be made available to both the Senate Select Committee staff and the Senate Human Resources Subcommittee on Health and Scientific Research staff. Miller said this procedure made sense to him.

I also confirmed with him that the Director was not expected to be at the executive session meeting of the Senate Select Committee with [redacted] General Counsel, on the subject of electronic surveillance next Wednesday, 27 July.

[redacted] LIAISON Attended the weekly meeting of principal congressional liaison officers at the White House this afternoon. There were no items of particular concern to CIA or the DCI taken up at this meeting.

11. (Unclassified - DFM) LIAISON Met with David Bushong, Senate Select Committee on Intelligence staff, to discuss the activities of the Subcommittee on Secrecy and Disclosure. Bushong said he and Mark Gitenstein, who also works on the Subcommittee, were meeting with Senators Joseph R. Biden (D., Del.) and James B. Pearson (R., Kansas) that afternoon to get further direction for their staff work. As Bushong saw the Subcommittee activities, they are pointing toward approximately a week of hearings in the fall to deal with some or all of the following matters: classification (a new Executive Order replacing E.O. 11652 is expected by 15 September 1977), compartmentation, declassification, unauthorized disclosure, and espionage.

STAT

I told Bushong that [redacted] Legislative Office, NSA, had passed to me Bushong's request for DCID 6/3. Bushong said it wasn't DCID 6/3 that they needed, but rather the annex to it. He said it was possible the Committee already had this document and he would check before asking me for it.

Bushong gave me a page from a David Wise book on intelligence which included a cite to an OGC paper done in the mid-1960's on unauthorized disclosure. Bushong asked for a copy of this OGC paper.

11. (Unclassified - DFM) LIAISON Ben Marshall, Security Director, Senate Select Committee on Intelligence, called to ask my cooperation in solving a Committee filing problem. Marshall said that letters with attachments could more easily be handled by the Committee if covering letters were separately classified from their attachment. Marshall admitted that CIA letters are separately classified but that letters from some other elements, such as the FBI, are not. I agreed to talk to representatives from other Agencies to relay this point for Marshall.
