GUIDED MISSILE INTELLIGENCE COMMITTEE

16 December 1958

MEMORANDUM FOR: Members, Guided Missile Intelligence Committee

SUBJECT : Missile Intelligence Requirement

1. At a meeting on 12 December, it was agreed that each member would prepare a service/agency listing of the intelligence needed to improve the confidence and reliability in USSR missile and space estimates. These listings are to be consolidated into a list for further GMIC action. It was mentioned that items included should be similar to the "ten most wanted" items previously listed.

2. It is requested that your listings include no more than ten items and that short statements be furnished describing the gaps which would be filled if collection were obtained. It is further requested that they be received in GMIC by 6 January 1959.
