

3 January 1966

MEMORANDUM FOR: Honorable Walt W. Rostow

SUBJECT : DRV Target Systems

25X1
25X1
1. Enclosed are four documents which relate to the question of DRV target systems that you talked about to [redacted] and me on Monday, 27 December. On another point, the attitudes of DRV and other Communist leaders, I understand that Ray Cline has sent you the Directorate of Intelligence piece carrying the reference title of [redacted] which talks of the Soviets' difficulties in getting military supplies into the DRV and why. Don't miss it.

2. Jim and I enjoyed the opportunity of talking to you and I hope answered at least some of your questions. We will surely take you up on your kind offer to lend a hand when next we are confronted with what look like unwieldy or misdirected terms of reference or assumptions for an estimate.
