

7. Far East:

FE

ONI

a. Para 6, 3rd sentence: It is suggested that the word "substantial" be deleted. While it is admitted that developments in the Moslem world do affect Indonesia, the physical separation of Indonesia from the rest of the Moslem world tend to reduce this influence. In any event, developments in Iran are not likely to have a substantial effect on Indonesia.

b. Para 7, 1st sentence. Change "on the other hand" to "it seems more probable that" and "might" to "would".

c. Para 10, 5th sentence. It is suggested that the phrase "even to the possibility of Communist armed revolt" be deleted. The possibility of this appears rather remote, since it is believed there are comparatively few armed Communists at the present time. The juxtaposition of this phrase with the other possibilities mentioned in the sentence tends to give it undue importance.
