SE-8

*Office Memorandum* • UNITED STATES GOVERNMENT

TO : Chief, Estimates Staff

DATE: 28 June 1951

FROM :  25X1A9a

SUBJECT: Suggested Series of Staff Memoranda on Implications of Cease-Fire

1. There is sufficient evidence now available to indicate that the Communists may seriously intend to pursue a cease-fire. It would appear, therefore, that an evaluation of the factors leading the Communists to make such a shift in policy and an assessment of the implications and significance of such a shift in terms of Communist intentions and capabilities should be undertaken in O/NE on a high priority basis. It is conceivable, moreover, that we might have to re-examine all estimates dealing directly or indirectly with the Korean war. In the Far East, for example, we should review the prospects for increased Communist pressures throughout Southeast Asia, Hong Kong and Macao.

2. Rather than wait to see whether a cease-fire will be effected, and, if it should, be confronted overnight with a myriad of new questions, it would appear desirable for the Staff immediately to give serious thought to the problems indicated above with a view to the preparation of a series of Staff memoranda.
