ABSTRACT

This report is a photographic study of this ground force installation. It contains an annotated photograph of the installation and provides the following data:

- a. Delineation of installation boundaries
- b. Identification of functional areas
- c. Measurements of all barracks and vehicle storage structures $% \left(1\right) =\left\{ 1\right\} =\left\{ 1\right\}$
- d. Equipment identifications from the best or most recent large-scale KEYHOLE photography

NOTE: This report has been published as an interim Basic Imagery Interpretation Report with the concurrence of the Defense Intelligence Agency.

- 1 -

25X1 25X1

IMAGERY ANALYSIS SERVICE

The following alphabetical designators are used to identify functional areas within military installations.

- A. Billeting area
- B. Vehicle storage/maintenance area
- C. General storage area
- D. Ammunition storage area E. Miscellaneous areas (hospitals, prisons, POL, personnel training facilities)
- F. Small arms range
- G. Driver training area
- H. Support area
- J. Tank/assault-gun rangeK. Automatic weapons range
- L. Subcaliber range
- M. APC range
- N. Combined arms range P. Artillery training area
- Q. Infantry training area
- R. Special or unidentified area
- NOTE: 1. The absence of one or more alphabetical designators indicates that those functional areas were not observed at that particular installation.
 - 2. Lower case letters (e.g., $B\underline{a}$) are used to identify more than one area of a particular functional category.

 \star All dimensions are given in feet.
