USE OF INFORMATION FROM COLLECTION PROGRAMS IN FINISHED INTELLIGENCE

GENERAL INSTRUCTIONS

Rating forms will be completed for each finished intelligence publication prepared by the DD/I and DDS&T. This is a machine-supported system and information must be gathered in a formatted fashion. Therefore, each analyst will complete the NON-SHADED parts of section I and II of this form. Please type or print legibly. Questions should be directed to CGAS/HSG, Room 2G 40, x1829 (red) or x5577 (black).

For each collection program contributing information to the publication, check only the highest rating that is applicable. More than one collection program may be rated as Key, Supplemental, or incidental for each publication. If the source did not provide any reporting useful in the publication, check the box labeled Not Applicable.

If a single publication treats more than one geographic area and/or topical category and the source mix for each varied then additional forms must be completed; e.g. India—economics—State and Japan—economics—[REDACTED] 25X1A

Rating categories are defined as follows:

Key—Information from a particular collection program was of such importance that basic conclusions of the finished intelligence item could not have been reached without it.

Supplemental—Information from a particular collection program was important but not essential to basic conclusions of the finished intelligence item.

Incidental—Information from a particular collection program was useful or interesting primarily as background but was used only incidentally in the finished intelligence item. (1) (2) (3) (4)
