THIS IS UNEVALUATED INFORMATION

1. Eleven tank cars of about 10,000 liters capacity each were built during August 1953 in the Chemische Maschinenfabrik Rudisleben. They are intended for transporting airplane gasoline, because they are enameled inside.
2. About 300 compressor cylinders are delivered monthly to the Maschinenfabrik Gera. These cylinders are manufactured at Rudisleben at the rate of about 450 per month. The cylinders are of sizes large enough for compressors up to 60 KW.
