- 10. A small movie theater with seating capacity of 200 to 250 persons was located east of the public square. This theater presented stage plays and files.
- 11. The majority of the homes had mutaide mater wells whose mater was drawn by hand pumps or water buckets hauled up by ropes.
- 12. Homes, buildings, and small business establishments had electricity. A power plant was located north of town on a small lake.
- 13. A dairy station was on the southern outskirts of town. A one story combination telephone station and post office building was east of the square on the road to Lvov.
- 14. There was a small lake on the northern outskirts of town. Swimming was prohibited. Fishing was permitted. The most abundant type of fish found in the lake was carp. It was necessary to have a license when net fishing but not when fishing with a pole. If the caught net fishing without a license he was accused of an administrative crime against the town.
- 15. A bakery and a flour mill were situated on the lake, north of town.
- 16. Near the public square was a small police station. A court house, a three-story brick construction, was cast of the square.
- 17. The town of Gorodok did not have any factories.
