NEW SOVIET CRANES, OTHER HANDLING DEVICES

MAKE SHIPMENT TO GES BUILDERS -- Vil'nyus, Sovetskaya Litva, 21 May 52

The Chelyabinsk Machinery Plant of the Ministry of Electric Power Stations has shipped three heavy cranes to the site of the Kakhovka GES.

CRANE FEATURES WALKING MECHANISM -- Leningradskaya Pravda, 1 Aug 52

The Moscow Severyanin Machinery Plant has built an experimental model of a new construction crane which features a walking mechanism consisting of a reinforced-concrete plate flanked by a pair of steel shoes. The plate and shoes are advanced, one after the other, by an electric motor moving the crane ahead at a speed of 6 meters per minute. The crane can lift weights of up to 3 tons as high as three stories.

MEET ORDER EARLY -- Moscow, Vechernyaya Moskva, 19 Jul 52

The Moscow Krasnyy Blok Plant completed its order from the Kuybyshev GES builders ahead of schedule, shipping them over 50 hoisting mechanisms. Many other hoists from the plant may be found at the sites of the Stalingrad and the Kakhovka GES projects.

CONTRIBUTE BELT CONVEYERS -- Moscow, Trud, 22 Jul 52

During this year, the Alma-Ata Machinery Plant of the Ministry of Electric Power Stations has sent the builders of the Kakhovka GES and the Main Turkmen Canal 100 stationary belt conveyers.

LEAD SOCIALIST COMPETITION -- Moscow, Vechernyaya Moskva, 7 Aug 52

The Moscow Krasny Metallist Plant has taken the lead in the socialist competition among heavy-machine-building enterprises for the second time this year.

The plant now takes 50 percent less time to build one trolley than it did in 1950. Welding steps have been eliminated in the manufacture of the trolley's trolley, which is now 16 kilograms lighter than it was.
