NORTHEAST CHINA RUBBER PRODUCTION CAPACITY, 1950

[Comment: This report gives two tables on the rubber industry of Northeast China published in the Chung-kuo Kung-yeh, March 1950. The first table gives the 1950 estimate of damage and degree of recovery of rubber plants in the Northeast. It lists the names of 16 plants in Mukden, 2 in An-tung, 2 in Liao-yang, and one in Ch'ang-ch'un. The second table lists the types of rubber products and their yearly output.

These tables were published in the Chung-kuo Kung-yeh without an accompanying article.]
