USSR PLANTS BUILD LAND RECLAMATION, ANIMAL HUSBANDRY MACHINERY

MAKE FARM AND LAND RECLAMATION MACHINES -- Ashkhabad, Turkmenskaya Iskra, 15 Oct 53

The Stalino Agricultural Machine Building Plant imeni Oktyabr'skaya Revolutsiya produces machines for grain crops, sugar beet crops, vineyards, and tea plantations.

Since the beginning of 1953, the plant has produced thousands of swamp rotary tillers for land reclamation work.

DESIGN NEW PLOW FOR BOG AND BUSH LAND -- Vil'nyus, Sovetskaya Litva, 15 Oct 53

The Tallin Repair Plant, Ministry of Agriculture and Procurement Estonian SSR, has assembled the first model of the MP-1 plow for use on bush-covered swampland, so common in the Estonian SSR.

The plow is equipped with a bush cutter, an adjustable plowshare, and wide rim wheels. The plow has passed tests and the plant is organizing its mass production.

PRODUCE DITCH DIGGERS -- Tashkent, Pravda Vostoka, 24 Oct 53

The Kiev Machinery Plant has produced a new universal ditch-digging machine for use with the DT-54 tractor. The new machine has a special device for packing down the bottom of the ditch.

The plant has designed and tested a universal tractor-mounted ditch-digging machine for digging temporary ditches. The machine is also used for leveling temporary ditches. The new ditch digger digs 4 kilometers of ditch in an hour, twice as much as does the KPU-200A ditch digger.

SOUTH URAL PLANTS PRODUCE FARM MACHINES -- Petrozavodsk, Leninskoye Znanya,
6 Nov 53

The Chelyabinsk Plant imeni Kolyushchenko has shipped stump pullers to Tyumenskaya Oblast and bulldozers to Stalingradskaya, Ryazanskaya, and other oblasts. These machines are intended for use in land reclamation and irrigation work. A large number of earth-digging machines is ready for shipment to Soviet republics in Central Asia.

The Kusa Machine Building Plant is producing parts for agricultural machines.

A plant in Zlatoust is producing well pumps, automatic watering troughs, and other items for animal-husbandry farms.

PRODUCE WELL-DRILLING MACHINE -- Alma Ata, Kazakhstanskaya Pravda, 2 Oct 53

The Toguzak Repair Plant, Kustanayskaya Oblast, is producing a machine for drilling artesian wells. The machine can drill to a depth of 100 meters. It is mounted on the ZIS-150 truck.

PRODUCE OVERHEAD CONVEYERS -- Moscow, Pravda, 15 Oct 53

In September 1953, the Syzran' Self-Propelled Combine Plant shipped more than 40 overhead conveyer assemblies to the Ukraine, to Central Asia, and to Moskovskaya, Leningradskaya, Gor'kovskaya, Omskaya, and other oblasts.

An overhead conveyer assembly consists of more than 400 meters of rails, four 300-kilogram wagons for feed deliveries, and two wagons for removal of manure.

One overhead conveyer assembly serves a farm having 100 head of cattle.

The plant has pledged to fulfill its 1953 production plan for overhead conveyers by 17 December 1953.

RECEIVE ORDER FOR OVERHEAD CONVEYERS -- Riga, Sovetskaya Latvija, 11 Oct 53

The Daugavpils Metal Plant has received an order to produce 300 overhead conveyers. The plant, which must produce and deliver to kolkhozes 50 overhead conveyers during the first quarter of 1954, will train a special crew to install the overhead conveyers in kolkhozes.

WILL BUILD A LARGE QUANTITY OF MILKERS -- Riga, Sovetskaya Latvija,
21 Oct 53

In 1951 and 1952, the Gomel' Gomsel'mash Agricultural Machine Building Plant developed and tested the DUP-10 mobile milker. The DUP-10 milks ten cows at the same time. It is equipped with a milk cooler.

In 1954, thousands of DUP-10 mobile milkers will be delivered to kolkhozes and sovkhoses of the Soviet Union.
