20/(1	1.	
25X1	2.	Comment. The three aircraft were previously observed in Jueterbog. As previously reported, the bomber regiment from Jueterbog was transferred to Welzow.
25X1	3.	crates of various sizes at the field. It was reported that the crates were loaded on gondola cars, some of the crates taking up the entire loading area of a car. Although
25X1 25X1		these statements may refer to MiG-15 crates, it was not believed that such a shipment was concerned. The present report, however, indicates that shipment of MiG-15 crates possibly arrived at the field. However, it is not known, why fighter planes should be ship ed to a bomber airfield.
25X1	40	Comment. The radar set near the flight control station is a Dumbo type set. The radar set located in the extension of the runway was previously reported.
