25X1X

25X1 [redacted] at NII 160, [redacted] in the Tool Design and
 25X1 Construction Office [redacted] seven [redacted] Germans. They were supervised by
 25X1 Ing. Malchow, one of the German colleagues. The function of this office
 25X1 was to design and construct models of tools necessary for the production
 25X1 of kinescopes, iconoscopes, and magnetrons. [redacted] a
 25X1 descriptive list of the persons [redacted] at the Institute (see pages 2-5)
 25X1 and [redacted] an organization chart of the Institute (see page 6).

List of Personnel at NII 160Tool Design and Construction Office

The following people, all engineers, worked in this office:

- Anurov, Soviet, replaced Lubinov until January 1950. He had no specialty.
- Asirel, Soviet, replaced Anurov. He is still in charge of this department.
- Bratke, returned to Germany in March 1952.
- Hoppe, returned to Germany in December 1950, deceased 1952.
- Lubirnov, Soviet, chief of this office. He was transferred in 1948 to his own design office, where only Soviets were employed. He had no specialty.
- Malchow, chief of the German group assigned to this office. He was transferred to the Production Planning Department in 1949.
- Thuermann, returned to Germany in March 1952.
- Treiber, returned to Germany in December 1950.
- Wende, returned to Germany in December 1950.
- Winkler, returned to Germany in March 1952.

Tube Design Group

The following German designers, all engineers, worked in this group:

- Bohne, returned to Germany in March of 1952.
- Fischer, returned to Germany in December of 1950.
- Reinecke, returned to Germany in March 1952.
- Reschke, returned to Germany in March 1952.

Electrical Measuring Instruments Group

The following Germans in this group were all engineers with the exception of one draftsman:

- Remke, Mrs., draftsman, returned to Germany in March 1952. Her husband worked on a tube sealing machine in the OKBM (Soviet designation - Source does not know what these letters represent). This particular building was not a part of the Institute but was within the Institute grounds, approximately two blocks away. Mr. Remke also returned to Germany in March 1952.
- Schmidt, returned to Germany in December 1950.
- Sentz, returned to Germany in December 1950.
- Zander, returned to Germany in March 1952.

German Personnel from Undesignated Sections

25X1

Baehr, Dipl Ing; 45-48 years old; married, one child; worked in Television Laboratory; returned to Germany in March 1952.

25X1

Beier, Dr.; 50 years old; physicist; married, two children. During 1946 he was in Gorkiy, USSR, for reasons unknown [redacted]. In 1947 he was assigned to Institute 160, Radio Tube Laboratory. In 1948 he was again sent to Gorkiy and may still be there.

Dirbach, Ing; 48 years old; married, no children; television specialist working in Television Laboratory; returned to Germany in December 1950.

Dobbrak, Dr.; field of specialization unknown; returned to Germany in December 1950.

Fleischer, Alois, Ing; 40 years old; bachelor; perhaps worked on magnetrons with Dr. Gerhard; returned to Germany in December 1950.

Gerhard, Dr.; physicist; returned to Germany in March 1952.

Grimm, Ing; 48 years old; married, two children; high frequency and oscillograph specialist, worked in Kinescope-Iconoscope-Oscillograph Laboratory; returned to Germany in March 1952.

Gromadies, Ing; 35-40 years old; married, wife and children stayed in Berlin; worked on magnetrons; returned to Germany in March 1952.

Grove, Chem. Ing; 35 years; married, one child; worked in Chemical Laboratory; returned to Germany in March 1952.

Hagen, Dr.; field of specialization unknown; returned to Germany in December 1950.

Hass, Dr.; 40 years old; married; three children; television specialist. He arrived from Fernseh, AG, Sudetenland, Czechoslovakia, [redacted] He returned to Western Germany in March 1952. Worked in the Television Laboratory at NIL 160. He went to Adlershof, Berlin, as chief of the Television Laboratory. He is there now. (sic)¹

25X1

Horn, Dr.; administrator of the archives; returned to Germany in December 1950.

Junker, Dipl Ing; 50 years old; married, no children; field of work unknown; returned to Germany in December 1950.

Kluge (REG-128), Ing; 45 years old; bachelor; worked in Television Laboratory; returned to Germany in March 1952.

Krey, Ing; 48 years old; married, no children; worked with Dr. Steimel on radio tubes; returned to Germany in December 1950.

- 4 -

Mattern, Ing; 48 years old; married, one child; worked on solidity testing of tubes with Spiegel and Schulze; returned to Germany in December 1950.

Michels, Dr.; bachelor; 46 years old; worked in Chemistry Laboratory; returned in December 1950.

Mie, Dr.; mathematician; returned in December of 1950.

Probst, Dipl Ing; 48 years old; married, two children; worked with Dr. Steimel on radio tubes; returned to Germany in March 1952.

Richter, Dr.; chemist; returned to Germany in March 1952.

Rosenstein, Dr.; perhaps a physicist, returned to Germany in March 1952.

Rothenburg, Ing.; 45 years old; married, two children; worked independently in a workshop for tube filaments; returned to Germany in March 1952.

Schloehmilch, Dr.; physicist; returned to Germany in March 1952.

Schmidt, Ing.; 40 years old; married, no children; worked in a workshop for the Tool Design and Construction Office; returned to Germany in March 1952.

Schulze, Ing. 35 years old; married, one child; worked on solidity testing of tubes with Spiegel and Mattern; returned to Germany in March 1952.

Sperling, Ing.; 40 years old; married, three children; worked on vacuum pump stands for transmitter tubes; returned to Germany in December 1950.

Spiegel (REG-149), Dipl Ing; 48 years old; arrived in Fryazino with his mother. Married a German girl while in the USSR. Radio tube specialist; returned to Germany in March 1952.

Thurley, Ing.; 48 years old; was a bachelor but married later in East Germany; worked in a laboratory for electrical measuring instruments; returned to Germany in December 1950.

Vogi (or Fogy), Dr.; Austrian; physicist; bachelor; was transferred to some other place unknown to Source. He designed electrical measuring equipment. [redacted] he might have tried to get in touch with the Austrian authorities and that his sudden disappearance was due to this effort.

von Bronk, Dr.; worked with a Soviet interpreter, not a technician; field of specialization unknown; returned to Germany in December 1950.

von Brueck, Dipl Ing; 48 years old; married, two children; worked on germanium detector program; returned to Germany in March 1952.

Wiener, Ing; 40 years old; married, his wife and two children stayed in Berlin; physicist. This man, on 22 October 1948, walked around with a rope around his neck because he felt that he had been kidnapped; and this was his method of illustrating his forceful detention. The Soviets took a dim view of this, and he
