Comment. Since a previous report stated that elements of the 2d Mecz Regt of the Eggesin Mecz Div were stationed at winter quarters in Rathenow and Premnitz, it is fairly definitely believed that these units are transferred to the Eggesin area, not to Ruegen Island. See

3. Lower to mention this detraining activity.

Comment. A previous report mentioned the entraining and the

description of the 3d Mecz Regt of the Rostock Mecz Div. See

The unit which arrived at Rostock from Saxony on 9 April
is still unidentified.
