25X1

- Deliveries of crude oil to the Luetzendorf oil refinery in January 1953. (quantities are given in metric tons):

Zistersdorf	1,886.8
Dobersmannsdorf	5,553.2
Matzen	<u>5,761.7</u>
	<u>13,201.7</u>

The oil from Matzen has a higher content of asphalt and of impurities than that from the other two fields and is consequently more suitable for tar and lubricating oil production.

- January 1953 Production of Luetzendorf (quantities are given in metric tons):

Gasoline	645.7
Paraffin	763.9
Diesel fuel	3,601.0
Lubricating oils	4,353.5
Other products (asphalt, paraffin wax, etc.)	<u>2,051.0</u>
	11,415.1
Supplementary products (vase- line, etc.)	15.4
Semifinished products	<u>1,220.8</u>
	12,651.3

3. The portions of the Fischer-Tropsch plant that have lain idle since the dismantling in 1951 have now been reconstructed as a fractionating plant. This will relieve the other installations at Luetzkendorf which have been showing signs of strain. At the same time, it will permit the planned increase in Diesel fuel production to be achieved.
