The Teerdestillation and Chemische Fabrik Erkner has received the assignment to erect a dephenolizing installation by the end of 1953. The value of the installation will amount to 735,000 eastmarks, excluding the cost of the initial work. This means that other planned projects in the Teerdestillation plant will have to be postponed, since only a total of 700,000 eastmarks has been approved for 1953 investments.
